What does Joe T. Jones, APSP Region 3 President say about the Region 3 endorsed insurance company, The Republic Group and Independent Insurance Group?

“The Republic Group and Independent Insurance Group have been there for Region 3 Members for the last 8 years. They have been there supporting our industry, saving our members premium dollars, providing great coverages and service. Their service has far surpassed what our members have experienced in the past with other insurance agencies and insurance companies. I personally have had my company insurance with them for 6 years and am happy they came along when they did. They are consistent, which in my mind is very important when it comes to helping our members.”
